**You can't prevent a government audit of your past claims,  
but you *can* reduce your future vulnerability, starting now.**

Your path to compliance begins with an objective audit of your medical documentation.  
 can help you assess what you're doing and make sure it's right going forward. So  
the next time you're audited, you can be confident in the quality of your documentation.

**You know  for our work in claims and litigation. Now, let us help you  
tackle your regulatory challenges, too.**

- **COMPREHENSIVE OR FOCUSED REVIEWS** to meet your needs
- **COMPLETE OBJECTIVITY** for the clearest insight into your practices
- **DEDICATED, EXPERT STAFF** for the most cost-efficient and prompt review
- **IMPROVED READINESS** to answer future audits
- **SOLUTIONS** to respond to completed audits, adverse decisions, or government allegations

**If you have a regulatory project that involves medical records,  
 can help. Visit us at [www.medicare.gov](https://www.medicare.gov).**
